## HAPPY HOLIDAYS FROM SOUTHWEST GAS

Sending warm wishes for a cozy and comfortable home this holiday season. Thank you for allowing us to serve you with reliable natural gas and helping to brighten your seasonal festivities.

## SUSPECT A NATURAL GAS LEAK?

Don't turn engines or equipment on or off. From a safe place, call **911 & 877-860-6020** immediately.

Learn what to do — and what not to do — if you suspect a leak at [swgas.com/safety](http://swgas.com/safety).

## NEED ASSISTANCE? WE'VE GOT SOLUTIONS!

During heating season, our contact center call volumes rise — especially on Mondays and the day after a holiday. Yet almost anything an associate can help with, you can do in **MyAccount** or with the **Southwest Gas mobile app**.

Learn more by visiting [myaccount.swgas.com](http://myaccount.swgas.com).

## EMBRACE THE JOY OF COOKING WITH NATURAL GAS

Natural gas is a preferred source of energy for cooking because it offers many benefits including quick startup, even temperature and reliability during power outages. When cooking with any range, cooktop or oven, whether gas or electric, install an exhaust for proper ventilation to eliminate the normal byproducts of cooking such as steam, smoke, grease and heat.
